

STATEMENT ON CHEMICALS, REGULATIONS AND STANDARDS: PBT Chemicals under TSCA Section 6(h)

This is to confirm that according to information from our raw material suppliers, during the production process of Sirmax branded products we do not use or intentionally add any of the following substances/group of substances:

- PIP (3:1) - phenol, isopropylated phosphate (3:1) (CAS#68937-41-7)
- DecaBDE - decabromodiphenyl ether (CAS#1163-19-5)
- HCBD - hexachlorobutadiene (CAS#87-68-3)
- PCTP - pentachlorothiophenol (CAS#133-49-3)
- TTBP - 2,4,6-tris(tert-butyl)phenol (CAS#732-26-3)

However, our products are not tested to check any possible presence of the substances mentioned above since this testing process is not a standard procedure within Sirmax SpA, therefore the presence of trace amounts in the product(s) coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded.

This declaration applies only to the composition of granules and may not be extended to end products obtained by any modification of the composition and/or processing conditions which could lead to improper use of granules.
