

Perfluoroalkyl substances, PFOA, PFOS

According to our actual knowledge and information, we hereby confirm that, in our products and during the production process of **all products** labelled with Sirmax brand

- **Perfluoroalkyl substances (PFCAs, long-chain or short-chain),**
- **Perfluorooctanoic acid (PFOA, cas#335-67-1),**
- **Perfluorooctane sulfonic acid (PFOS, cas#1763-23-1),**

or raw materials containing these according to the information given to us by the supplier, are not intentionally used.

However, our products are not tested to check any possible presence of the substances mentioned above since this testing process is not a standard procedure within Sirmax, therefore the presence of trace amounts in the product(s) coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded.

This declaration applies only to the composition of granules, and may not be extended to end products obtained by any modification of the composition, any processing conditions which could lead to deteriorated material or improper use of granules.

The products listed above are not tested to check any possible presence of the substances mentioned above. Please note that this testing process is not a standard procedure within Sirmax SpA.

This information and our technical advice - whether verbal, in writing or by way of trials - are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved.

Our advice does not release the user from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products are beyond our control and, therefore, entirely the user responsibility. This declaration does not waive the responsibility of user, who must check whether finished products are appropriate for the specific final use.
