❖ Company information for “Supplier Evaluation”

Dear customer, according to your need of information for the “Supplier Evaluation” requested by your Quality Management System, Sirmax prepared its own form with usually requested information, included copies of quality and environmental certificates.

We apologize for not answering through your form, but our form is for sure the quickest and most complete way to answer to your questions.

Additional information could be retrieved at www.sirmax.com or contacting us at info@sirmax.com.

❖ General data and organization of Sirmax Group

- SIRMAX produces compounds of PP, ABS, PS, PC/ABS, PC, POM, PA, PPO, PBT, PMMA and distributes a wide range of polymers on behalf of our partners.
The 12 production facilities worldwide have 46 twin-screw extruders with outputs from 30 to 4000 Kg/h. 630 Employees worldwide; production runs continuously in three shifts.
- SIRMAX has three advanced laboratories for research and development, located in Cittadella, San Vito al Tagliamento and Kutno with twelve additional extruders for the development of new materials, serving all the other plants around the world.
- SIRMAX’s most important customers are manufacturing companies in the fields of injection molding for household appliance, automotive, electrical, electronic and technical items.
- SIRMAX’s sources are suppliers that are the main petrochemicals and thermoplastic producers or the main suppliers for additives, masterbatches and filler such as Basell, Borealis, Sabic, BASF, Bayer, Sibur Clariant, Imerys, Reagens, etc.

Each productive plant of SIRMAX:

- has got a laboratory equipped for quality control that can control rheological, mechanical, chemical and physical characteristics of polymers, according to ASTM and/or ISO standards. The instruments are checked and calibrated with fixed frequency. The laboratories release a certificate of analysis for each lot delivered to the customer.
- has a mechanical workshop with a warehouse for plant maintenance and spare parts in each productive facility.
- has a logistic network independent but regulated by the Company’s standards; employs professional transporters for deliveries to customers, performing them according the agreed specifications. The product is delivered in 25 Kg bags, big bags, octabins, auto silos container. For each delivered lot SIRMAX can send a certificate of analysis or compliance, and for each product a technical data sheet is available. Payment conditions are fixed in the quotation.
- Average of days between order and delivery: 25 days, depending on the kind of product. For every customer SIRMAX can reserve a safety stock in its warehouses, depending on the quantity delivered and the frequency of the orders.
- Operates with certified Management System; upon agreement the Customer is welcome to audit Sirmax plants.

	2014	2015	2016	2017	2018	2019
Turnover in M€:	160	200	215	260	300	350
Production in KTon	110	141	175	180	190	230

Organization and chiefs of departments:

CEO : Massimo Pavin

Global Accounting Director: Gabriele Bellotto

Global Elastomer Director: Leonardo Bellomo

Global Purchasing Director: Francesco Lucchetti

Global Operation Director: Alberto Alfonsi

Global Opportunity to Market Director: Marco Moretto

Environmental Manager: Andrea Agnoletto

CFO : Roberto Pavin

Global Sales Director: Flavio Olivo

Global Sales Elastomer Director: Stefano Capurro

Global ICT Director: Alessandro Marella

Global HR Director: Riccardo Binotto

Global Automotive Director: Luca Battistoni

Quality Assurance Manager: Luca Fabris
