

Statement on Conflict Minerals according to Dodd-Frank Wall Street Reform and Consumer Protection Act in 2010: Section 1502 and Regulation (EU) 2017/821

According to our actual knowledge and information from our material suppliers, we can confirm that in the manufacture of products listed in **Table 1**

- ***four minerals and their derivatives designated as “Conflict minerals” (Tin, Tungsten, Tantalum, Gold)***

are not intentionally added.

However, our products are not tested to check any possible presence of the substance(s) mentioned above since this testing process is not a standard procedure within Sirmax SpA, therefore the presence of trace amounts in the product(s) coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded.
